Quick Tips for Shipshape SAM

Only **36%** of the software businesses pay for is utilized.[1]

Here are some money-saving tips that are bound to rescue you from going overboard on licenses:
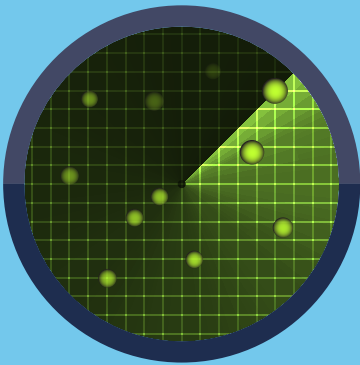

Tip #1
Get Visibility:
- Realize your entitlements
- Get detailed usage data
- Calculate your current compliance position

Tip #2
Detect Surplus:
- Pinpoint license overspend
- End maintenance on unused licenses
- Rationalize the apps you're using

Tip #3
Rescue Unused Software:
- Implement a software reclamation policy
- Reallocate unused licenses
- Resell/swap excess licenses

Tip #4
Prepare for Next Renewal:
- Understand your usage and licensing
- Search for software volume discounts
- Negotiate better terms and conditions

Tip #5
Be Efficient:
- With sophisticated tools for complex software (ditch the spreadsheets!)
- Implement automated processes
- Use an intuitive software portal (facilitate ease of software requests/installation)

Rise above rough seas.
