ivanti

Ivanti Unified IT Enterprise License Agreement

The Ivanti® Enterprise License Agreement (ELA) is an innovative licensing vehicle for enterprise customers. Now organizations can take advantage of Ivanti's full portfolio to unify their IT and deploy solutions that match their business initiatives—without spinning up a new procurement cycle or worrying about where to find budget for each initiative.

Minimize Vendor Fatigue

Leveraging multiple vendors means coping with different buying processes, maintenance programs, support methods, and licensing agreements—each with its own compliance issues. You can give in and let vendors rule your life. Or, you can team up with a partner that helps you be strategic and saves you time and money.

Relax a Little—The Rules Are in Your Favor

You know about true-ups—they're a pain, right? What if you were automatically licensed for 20 percent more than what you're paying for? We call it "True-Forward." This means at the end of each year we reset your license count to your new amount without any back-charges—unless, of course, you go well beyond your added 20 percent. True-Forward would certainly reduce a lot of licensing headaches, wouldn't it?

Revel in Your Discounts

You have multiple ELA choices with significant discounts: choose a *Pick 1, Pick 2, SMB,* or the whole *Unified IT*, which includes solutions from five product families.
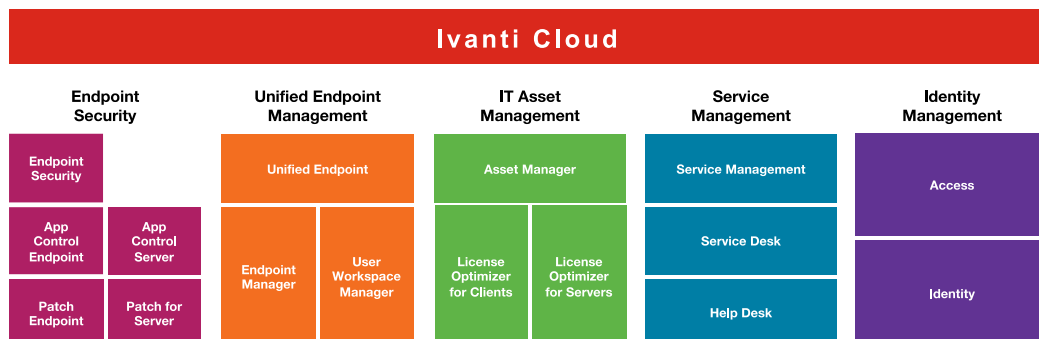

- **Unified IT:** Get the best from all five Ivanti product families at a significant savings, plus all the extras.

- **Pick 1 or Pick 2:** Choose one or two product families and get all the primary products within those families.

- **SMB:** Have 100 to 1000 users? Get the necessary IT solutions to help keep pace with a growing business.

- **Education:** Even more discounts on ELA versions.

Gain Ivanti Cloud and Greater Visibility

The ELA also provides additional products and functionality not included with each Ivanti product.

- **Ivanti Cloud:** Each ELA includes Ivanti Cloud with advanced intelligence, automation and Real-time capabilities along with product-related connectors.

- **Xtraction Dashboards:** Pick 1 and Pick 2 ELA's get the enterprise server and unlimited viewers. Unified IT ELA receives the top 10 third-party data connectors.

- **Ivanti Automation:** All ELA's receive Automation Standard. Choose an ELA with the Identity product family and receive the Enterprise version.

ELA | AT A GLANCE

Ivanti Cloud				
Endpoint Security	**Unified Endpoint Management**	**IT Asset Management**	**Service Management**	**Identity Management**
Endpoint Security	Unified Endpoint	Asset Manager	Service Management	Access

Patch Endpoint / Patch for Server			Help Desk	Identity

ELA Elements at a Glance

Element	Details
License	User-based subscription
Minimum User Count	500 Users (UIT, P2, P1, & Education) 100 Users (SMB)
Term	2-3 Years
Delivery Model	On-premises and Cloud
True-Forward (True-Up)	True-Forward = Base + 20% with no back charges
Price Protection	For contract term
Renewal	Maximum of 5% annual—applied at renewal

Pick and Choose to Solve Business Challenges

Once your initiatives get the green light, go for it! You have what's needed to make it happen with the Unified IT ELA. You'll find most projects get the green light faster, because there won't be the same budgeting issues. Here are a few solutions that leverage the financial benefits of the ELA:

1. **Onboarding and Offboarding** (Unified IT) – Automated provisioning and de-provisioning of devices, security rights, and services.

2. **Self-Service IT** (Unified IT) – All services, knowledge, software, and more available through an end-user portal.

3. **Unified IT Dashboards** (Unified IT) – Dashboards connected to all Ivanti and top non-Ivanti vendor data.

4. **Automated Isolation and Remediation** (Unified IT) – Accelerated security-incident resolution.

5. **Windows 10 Migration and Rollout Updates (**Pick 2) – Migrate to and manage the rapid cadence of updates.
