February 2024 Patch Tuesday is feeling like a return to normalcy. Microsoft has resolved 73 new CVEs, two of which are confirmed Zero-day vulnerabilities. Most of the risk this month can be wiped off your systems by deploying the Windows OS updates, but there are additional concerns to investigate in Windows AppX Installer and Exchange Server. For more details check out [this month's Patch Tuesday blog](#).

	Affected products	CVE count	Impact	Vendor severity	Ivanti priority	Threat risk	Exploits	Disclosures	
	APSB24-07	Acrobat and Reader	13	Remote Code Execution	Critical	1
